DUG OUT.

(Continued from first page.)

cavation was being made. Ordinarily when the prisoners are quiet during the day, mischief is expected, but to avert suspicion a continual clatter of talk and laughter was kept up by the prisoners. There were 11 men in the lower jail, and they ranged themselves on the benches so as to give the im- Garner Miller. The escape was made | m., Homer Betler, Akren; Billy J., br. the day will probably be Wednesday. pression that they were all interested in the card games. The jail is so dark of the walls, and gloomy that the deception was not hard to practice.

SHERIFF KELLY TALKS.

Relative to the escape, Sheriff Kelly said: "The work was undoubtedly done since Thursday. I base this opinion upon the fact that the abandoned cell was examined on Thursday, and the prisoners must have overheard us saying that a blacksmith had been secured to repair the cell. This announcement must have caused them to begin promptly and work vigorously, as the whole plot would be exposed when work of repairing the cell was commenced. In fact, had there been any earth in the cell when it was inspected Thursday the plot would have been exposed. It was not hard for them to dig in the soft earth, and this accounts for the size of the excavation they were able to make.

I cannot tell why the other men in the lower fail did not escape, unless they lacked courage. They knew all the time what the others were doing. although they denied all knowledge of it. However, when the discovery was made, I noticed that the piece of flagging that had been removed had been carefully replaced, and a newspaper thrown over it. The four men who remained behind were probably in the plot, but something must have occurred to make them lose their courage at the vital moment.

"The escape was naturally a great surprise to me, because I was always of the opinion that the entire floor of the jail was underlaid, part of it with boller sheet steel, and the rest with a thick conting of stones cemented together."

THE DISCOVERY.

The discovery of the escape was made at 9 o'clock, when Sheriff Kelly went into the jail to lock the prisoners in their cells. The prisoners are allowed to run together in the corridors during the day, so long as they are well behaved, and it is understood that when they bear the jailer entering the jail at night that all are to bustle into their cells. The jatter then walks along the cells, and speaks to each man, or observes that he is in his cell. All the prisoners have candles, and these are lit at night, when they enter their cells. On Saturday night, the discovery was made when called the names of some of the prisoners as he entered the jail.

The four men who had remained behind had nothing to say, other than stomach troubles. I was given up by that they knew nothing of the whole physicians. Kodol saved my life." affair, claiming that they had not been Take it after meals. on good terms with the others. Upon investigation, the earth in the aban-

doned cell was discovered, and later r. m., by Blue Bell, Abbie Bloomingthe place where the excavation had dale, Bedford. been made.

OTHER DELIVERIES.

This is not the first time that pris. Dunkirk, N. Y.; Annette, ch. m., by oners have escaped from the Summit Wm. M., J. T. Sweeney, Cleveland; WILL PROBABLY PLAY ANOTHER county jail, since its completion in Billy M., b. g., by Pliot Medium, F. 1843. In fact, every prisoner got away the second night it was occupied as a jail, and among the number | Expect, b. g., by | Expedite, Charles | Akrons. It is believed that the game was a notorious counterfeiter, named Welday, Cieveland; Honey Bess, ch. by pushing a block of stone from one

of the prominence of the prisoner, occurred in 1845, during the administration of Sheriff Lewis M. Janes, The prisoner was Edward P. Willis, a young Bostonian, and brother of the poet, Nathanlel P. Willis. He was convicted of criminal assault upon a young woman. His escape was made possible by outside aid, the jail doors having been unlocked by false keys. Upon leaving, Willis left a humorous by Ellerie Wilkes, Dubel Bros., Orrville; and sarcastic document for the benefit of the jailer.

In 1861, during the administration of Sheriff Jacob Chisnell, a young man, named Sobieski Burnett, convicted of burglary, escaped by cutting his way through the roof and jumping to the ground.

While Levi J. McMurray was Sheriff, 873 to 1877 away by sawing through the bars. During the administration of Sheriff

Wm. B. Gamble, 1885 to 1889, a young man, named Jones, escaped by the aid of his sweetheart, who was employed to do housework at the jail. She procured a key and, unlocked the doors. They were arrested afterward, and the girl was given a sentence for aiding the prisoner to escape.

An interesting escape was made in 1886, by Elmer Flickinger, convicted of burglary. Wm. B. Gamble was Sheriff at the time. Flickinger crawled through a hole made in the roof and slid down a lightning rod. Various attempts at escape have been made from time to time by prisoners, but the above instances and the present case are about the only ones in which efforts resulted in success. There have been some bad men. including murderers and notorious crooks, incarcerated in the Summit county jail, but these have always been guarded too closely to make escape possible.

Take Care of the Stomach

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the the Sheriff got no response when he food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: "Kodol has cured me. I consider it the best remedy I ever used for dyspepsia and

Ladies and gentlemen, big results from a few hours work each day. Apply at once. No experience regulred. For particulars enquire at Democrat Office.

Henry Jordan, who explained to the Mayor that he was a marcher from going to do about it?" Toledo and that he did nothing wrong, quired Barnett. Mrs. Sadler and was arrested by Officer Duffy down town Saturday night, and locked up and refused to let Barnett on a charge of suspicion. Some one out before coming to a settlement, came to Officer Duffy and reported but he pushed them aside and took to him that a number of men were to his heels, after a scuffle. Neighbors crowding people who were getting on caught him and he was arrested. He and off atreet cars, and trying to pick told a very conflicting story and the their pockets. Jordan is suspected of Mayor fined him \$25 and costs and being one of these men. He pleaded sentenced him to 80 days at the Cannot guilty and gave a number of refer- ton workhouse, ences in Toledo. He is held while the

released on bond and left town. The

bond is declared forfeited.

"Yours was the worst tangled story that has been told in Police court in two years," said the Mayor to Ernest Barnett, Monday morning, after the latter had been on the witness stand in his own behalf about ten minutes. Barnett was arrested on a charge of petit larceny. He went to the home of O. L. Sadier, on East Buchtel ave., Saturday, carrying a kit of tinkers' And ART STORE.

He was put to work fixing a tea kettle and other tinware and when he had finished he was tendered a \$1 bill in payment. He demanded 75 cents for his work and said that he had no change. Mrs. Sadler and her daughter Edith said that he had not earned 75 cents, and declined to pay that much.

her daughter barricaded the door

buildings that the plants would close. Barberton, Sept. 29.—Saturday proved And thus matters stood until two days before the opening when some of the men that anti-Dick sentiment rules in the having large interests in the factories. appeared on the scene and looked with though cities from far and wide frowning disapproval upon the notices. throughout the state sent delegations. The next morning new notices were Parberton, so near to Akron, failed to posted which stated that the factories would not close on Saturday.

The management of some of the factories have no love for General Dick for one reason and another, and they opening of the Republican campaign were determined in no way to add to his glory, hence the decision not to It was at first intended by the party close the factories.

All of this was highly pleasing to the the opening. A meeting was called, leaders of the anti-Dick faction who new turned their strenuous efforts on out that the Barberton delegation the remaining 400 persons who still expected to form a delegation, with such success that on Saturday no real atmanagement of the various factories tempt was made to organize for the parade.

The feeling against Gen. Dick is largely owing to the recent postmastership appointment. Though Mr. T. J. Davies, the present postmaster, has, probably, as many friends in Barberton as Mr. Geo. Shaw, the ex-postmaster, there is a strong sentiment that Mr. Shaw was entitled to a second term and there is resentment over what is termed "General Dick's trickery" in making the appointment in the way

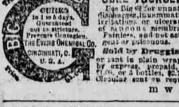

"It just looks," said a prominent Republican, "as though the slate were fixed up in Akron and carried through regardless of how Barberton people some of the factories, of their own vo- felt about it or what Barberton people
